

## Linton Road, Balsham archaeological investigation

# Site Tour

**11am, Friday 6th September 2019**

Pre-Construct Archaeology, funded by Matthew Homes through RPS Group, will be completing their excavation of a Roman road and roadside settlement at their site off Linton Road, Balsham. Members of the public are invited to a site tour to view the archaeology and a display of finds recovered by the investigation. Visitors will have the opportunity to chat with the archaeologists working on site and find out about life in this corner of Balsham in the Late Iron Age and Roman periods.

Find out about the development of the Roman road, the origins of the settlement and its eventual abandonment in the late 4th/5th century. Is there evidence for early Saxon settlement on the site?

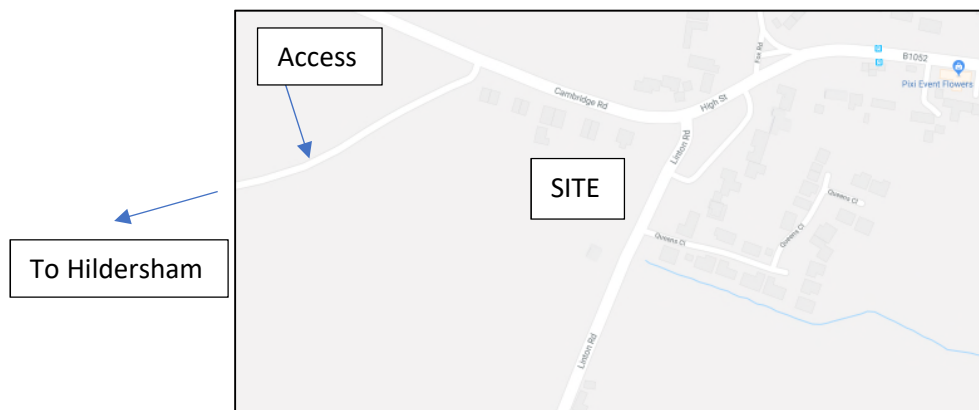

*Excavation of a human burial*

*Excavation of Roman finds*

Site location, please access via Hildersham Lane, parking available in field  
(no access from Linton Road, parking in field at owners own risk)
